How can I block Apple AirPort Express 2012 router?

2019/12/13

Hello Peter! Apple AirPort Express 2012 is their new router. For \$100 you get an amazing device that works as dual-band router giving everybody in your house fast wireless internet access. In addition it has an AirPlay support that enables you to turn any music device in your house into AirPlay music system. Oh, and there is also the AirPort Utility app if you want to configure this router. Apple AirPort Express 2012 uses two frequency bands for its work - 2.4GHz and 5GHz. The second one is faster, especially in close distance connections, and the first one is great for connecting all other wireless devices in your home to this router. So if you need to block this router, you can use Apple AirPort Express 2012 jammer that needs to be configured on both 2.4GHz and 5GHz to work properly.

cellular signal jammer apk
